

THE BLOOMFIELD CITIZEN.

VOL. II. NUMBER 8. WHOLE NO. 60.]

BLOOMFIELD, NEW JERSEY, SATURDAY, JUNE 14, 1884.

[PRICE, \$2.00 PER YEAR.]

THE BLOOMFIELD CITIZEN

A WEEKLY JOURNAL
OF
LOCAL NEWS AND HOME READING.
Entered at the Post Office at Bloomfield as second class matter.

Office: Over the Post Office.

DEPOT HOURS: From 7 to 9 o'clock p. m. Wednesday, Thursday and Friday.

Special Notice.

During the summer, the office of the Citizen will be open Wednesday, Thursday and Friday evenings, from 7 to 9 o'clock. Contributions should be sent to the office not later than Thursday evening.

ABOUT TOWN.

Work on the new Seminary school building is progressing rapidly.

W. D. Marsh is occupying the Dr. Hargrove house on Franklin street.

Dr. J. E. Stubbart has returned from Florida and will be in town a few weeks.

Glenwood avenue, between the Centre and the depot, has been greatly improved by the recent grading.

In less than forty-eight hours after the fire the building was torn down, enough of it to enable a fire could not be found on the site.

The park is a delight to the eye; but a big lazy tramp or two takes away a good deal of the beauty. Keep the tramps off the grass!

The Bee Hive, of which an advertisement appears elsewhere, will be open until nine o'clock evenings, for the accommodation of customers.

Several changes have recently been made in the time of trains on the New York and Greenwood Lake Road. Our table is corrected accordingly.

The civil suit of Putnam vs. Ward & Son, which has attracted considerable attention, is set down for trial before Justice Hageman Monday afternoon.

We offer special inducements to employers of the mills and factories in our town sending in their subscriptions for THE CITIZEN during the campaign year.

On Tuesday evening Joseph Higgins made complaint before Judge Hageman that one John O'Hara while assaulting him hit his finger. O'Hara gave bail for appearance when wanted.

The Close house is at last among the things that were. But the brave heroes who attacked it had no clear conception of the stuff that was in it or they wouldn't have been quite so rash.

It would not be a bad idea for some one to keep really first-class ice cream in this village. Our people will not buy trash of any sort and there is a capital chance for a nice business this summer.

There are a good many Republicans hereabouts who are not enthusiastic over Blaine and Logan. But the Democrats don't seem as happy as they ought to be over it, themselves. And if they are not pleased we ought to be.

Miss Mary A. Fillmore, teacher in the Brookside school, and who received a furlough from the trustees last February on account of sickness, has returned home "cured" in the language of the physician. The rest and quiet at home, it is expected, will prepare her to resume work in the fall.

The Seminary boys have gone to their homes with but few exceptions, where they will spend their vacations. Several new students have passed the necessary examinations and will be admitted to the institution in the fall. Rev. John S. Fismar and Rev. Philip Vollmer were the members of the graduating class this season.

Monday evening the carpenter shop of David Decker was ransacked, and about seventy-five dollars worth of tools stolen. All were marked with the name of the owner with but few exceptions. Mr. Decker is unable to place suspicion on any party. Admittance was secured through an upper window by means of a ladder.

On June 19th the members of the Bloomfield Orphan Asylum Association (an auxiliary to the Newark Asylum), will serve a dinner at the Newark Institution to the unfortunate, ninety in number. It has been the custom of the Bloomfield ladies to give a picnic in Weaver's grove each year, but for several reasons it has been decided to serve a dinner instead on this occasion.

Prince Albert Hunt was arrested on Wednesday upon complaint of one Mary Thompson, both residing in the house known as the "Beehive," on Bloomfield avenue, where Italians and all other nationalities reside, charged before Justice Hageman with using profane language. After severely reprimanding the Prince for his conduct, and as it was his first offence, he was let go with a promise to do better.

A few months since Mrs. Jacobson had three nice cottages erected on State street. The investment has proved a very profitable

one and she has now decided to erect a like number on the opposite side of the same street. Ground has already been broken for them. Why cannot other property owners see this golden opportunity for a safe and profitable investment, and thus supply the increasing demand for small dwellings.

The question is frequently asked where the large cannon came from which now lays at the lower end of the park. It is a relic of the late war and has, until recently, been used as a target on a drive on the grounds of A. T. Morris by being half buried. It has now been taken to the park to be used for the same purpose. A rumor was prevalent that it had been excavated near Mr. Corby's quarry on the avenue, but it is incorrect.

Essex No. 1.

The annual meeting of Essex Hook and Ladder Co., No. 1, for the election of a Foreman, Assistant Foreman and Clerk, for the ensuing year, was held at the Truck house on Tuesday evening. There were two tickets nominated, Foreman, John Jenkins; Assistant Foreman, Charles A. Keyler; Clerk, John Dalrymple; and Foreman Frank G. Tower; Assistant Foreman, T. Howell Johnson; Clerk, H. B. Davis; and resulted in favor of the last named ticket. Mr. Dalrymple withdrew in favor of Mr. Davis.

The B. F. A. Organization.

At the organization of the Trustees of Bloomfield Fire Association all the trustees were present excepting Mr. Sherman. G. T. Moore was chosen Chairman and J. B. Moore Reford Secretary. The use of horses in case of fire was left discretionary with the Marshal. Fire districts as published in issue of 7th inst were approved. A committee of three, Messrs. Handy, Marsh, and Chambers, were appointed to act with a like committee from the Hose Company to procure subscriptions in the name of the association for the purchase of a Hose Carriage. Two applications for membership were received.

School Matters.

It is sometimes said, "Our teachers are paid too much," or again, "Their pay is entirely too small." A glance at the tables given below, from the report of the State Board of Education for the year ending August 31st, 1883, will show that School District No. Seven pays among the highest salaries both in the County and the State. This should dispose at once of the claim upon the part of some that our teachers are paid too little and of others that our salaries are too high.

In Essex County, the township of Montclair pays upon the average the highest salaries to their teachers, East Orange coming second, and Bloomfield third, while Livingston holds the lowest place in the State. The highest salaries paid are in Union County, in the city of Plainfield; Essex County comes second, Montclair ranking next to Plainfield among the school districts of the State. In the second table, only the highest salaries are given:

SALARIES IN ESSEX COUNTY, AUG. 31, 1883.	Female.	Male.
(1) Montclair.....	\$56.66	\$200.00
(2) East Orange.....	55.36	142.50
(3) Plainfield.....	54.50	130.00
(4) Newark.....	52.55	151.50
(5) Belleville.....	50.00	80.00
(6) Orange.....	46.00	140.00
(7) West Orange.....	43.85	82.50
(8) Clinton.....	38.75	110.00
(9) Caldwell.....	37.78	75.00
(10) South Orange.....	36.37	100.00
(11) Milburn.....	32.33	60.00
(12) Franklin.....	30.33	85.00
(13) Livingston.....	25.00	40.13

HIGHEST SALARIES PAID IN EACH COUNTY IN THE STATE.	Female.	Male.
Atlantic.....	\$44.50	\$68.75
Bergen (3).....	55.21	81.25
Burlington.....	39.65	45.58
Camden.....	41.00	100.00
Cape May.....	36.65	116.50
Cumberland.....	45.00	80.00
Essex (2).....	56.66	200.00
Gloucester.....	34.83	50.00
Hudson (4).....	37.78	75.00
Hunterdon.....	39.67	35.00
Mercer (Trenton) (5).....	52.50	130.00
Middlesex.....	43.70	80.00
Monmouth.....	44.16	53.33
Morris.....	40.84	74.75
Ocean.....	37.20	50.00
Passaic (6).....	50.00	50.00
Salem.....	36.60	37.00
Somerset.....	35.19	60.00
Sussex.....	42.50	47.60
Union (Plainfield) (1).....	62.00	150.00
Warren.....	37.42	100.00

According to the school census just taken there are 1,537 children now resident within the district between the ages of five and eighteen years. (This shows a gain since last year of twelve.) Of these 274 attend private schools, and 520 attend no school. The number included in this latter class is largely made of those who have left the schools before reaching the maximum age of eighteen years, and are now engaged in some lucrative employment.

A canvass of the district bounded by Glenwood avenue, the Delaware, Lackawanna and Western Railroad, and the Montclair line, known as West End, shows that there are 220 children between five and eighteen years of age, of whom eighty-four are between the ages of five and ten, or such as would ordinarily be found in the primary schools. Perhaps three fourths of these would regularly attend a school organized for their benefit.

The enrollment at Brookside last year was 100, and at Berkeley 174.

Disorderly Conduct.

On Monday afternoon two men who claimed residence in New York and a woman, by name Johnson, who resided in town, were under the influence of liquor, and their actions were the subject of comment by every person who saw them. In the evening they went to the D. L. & W. station and there continued their conduct. Mr. Cooper, Ticket Agent, ordered them away but they refused to go, replying with the most offensive language. Justice Hageman just then passed and his advice to them to leave was replied to in the same manner. He was then requested to cause their arrest. Complaint was made by Mr. Cooper and the men were given thirty days in the County Jail. The woman, it was learned, was the only one to care for a sick mother and several small children. For this reason she was allowed to leave on her promise of good behavior. Her actions while in the court alone were sufficient in warranting a severe sentence for contempt and threat.

Lodge of Sorrow.

As has been previously announced, a lodge of sorrow was held by Eastern Star Lodge, No. 570, K. & L. of Honor, on Friday evening of last week, at their hall on Glenwood avenue, in memory of the late Brother Bennett. Thomas Henderson presided as Protector, and Mrs. A. L. Bosch as Chaplain. At the capital was a large black canopy, under which was suspended a life size portrait of the deceased. A black casket stood in front of a black, broken column, which was inscribed, "In memory of our Brother," and entwined with evergreens. Two young ladies stood guard over the casket, with crossed spears; one was dressed in black and the other in white. The interior of the room was trimmed in mourning. The exercises throughout were conducted after the rules of the Order, and were very impressive. Representatives from several lodges in the vicinity were present. Music was furnished by a double quartette.

Randolph-Boeman.

Mr. Hugh F. Randolph was married to Miss Margaret E. Boeman, of Flemington, N. J., on Tuesday, the 10th inst, in the First Presbyterian Church of Flemington.

The ceremony was performed by the pastor, Rev. Dr. Mott. The church, which is a beautiful stone structure, was tastefully decorated with flowers, and was filled by the friends of the bride and groom. After the marriage a reception was held at the residence of the bride's mother, and was largely attended by friends from Flemington and Bloomfield.

Miss Boeman is the youngest daughter of the late Col. Boeman, of the 15th Reg. N. J. Vols., who was killed while in command of his regiment, in one of the battles in Virginia, near the close of the war.

Mr. and Mrs. Randolph will spend the summer with Mr. Jacob F. Randolph, at Neshanic, N. J., and early in the fall will occupy their new house on Franklin Hill, Bloomfield.

Essex County Hunt Races.

The Hunt races came off as advertised, last Saturday, at Waverley Park. The weather was all that could be desired, and the attendance was very large, about 4,000 persons being present.

The races comprised flat races, steeplechases and hurdle races, with a fourteen-foot water jump. The course consisted of an outer and an inner track, with hurdles, a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart. On the side of the outer track, opposite the grand stand, was a stone wall, a sod bank and a ditch filled with water, at different points. In the track, on the same side as the grand stand, were two hurdles at equal distances from it. At the end of the clipse to the right was a stone wall four feet wide, and on the same side of the outer track, nearly opposite the grand stand, was a double jump, the hurdles being forty feet apart.
